LUMÏN
QUICKSTART GUIDE

AMP

⚠ Contains important volume instructions

WHAT YOU NEED

Typical LUMIN system components:

LUMÏN
Network playback system
(See LUMIN quickstart)

Pre Amp
(optional)

LUMÏN
AMP

Loudspeakers

⚠

- When turning on your system, always turn LUMIN Amp on last

- When turning off your system, always turn LUMIN Amp off first

- Ensure the App or Pre-amp volume is at a low level before turning LUMIN Amp on

- On initial setup, follow the instructions overleaf

For more help and information, please visit
**www.luminmusic.com**

1 Connect LUMIN Amp to your LUMIN player using XLR *or* Phono Cables and select the appropriate switch position

LUMÏN   AMP

XLR BALANCED IN RIGHT | XLR BALANCED IN LEFT
RCA UNBALANCED IN RIGHT | RCA UNBALANCED IN LEFT

Use *either* Balanced XLR (recommended) or Phono cables (not both)

XLR ▭ RCA

⚠ Ensure the switch position matches the connection type used

1 Connect LUMIN Amp to your LUMIN player using XLR *or* Phono Cables and select the appropriate switch position

Pre-amp   AMP
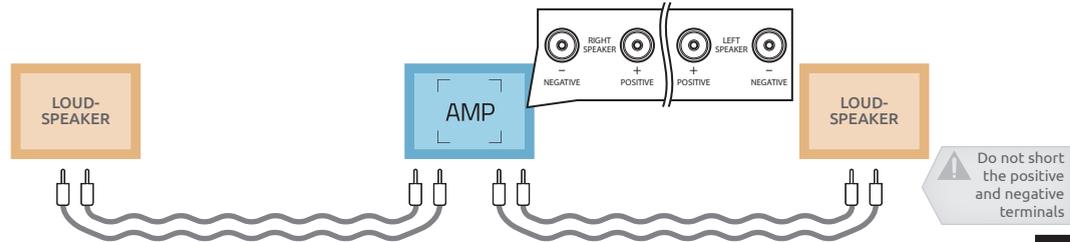

XLR BALANCED IN RIGHT | XLR BALANCED IN LEFT
RCA UNBALANCED IN RIGHT | RCA UNBALANCED IN LEFT

Use *either* Balanced XLR (recommended) or Phono cables (not both)

XLR ▭ RCA

⚠ Ensure the switch position matches the connection type used
